Abstract

LadyRipple (\$LRP) is a community-driven token built on LadyChain — a next-generation EVM-compatible blockchain designed for speed, security, and scalability. LadyRipple is more than a token. It is a movement: a cultural force that merges cyberpunk aesthetics, financial empowerment, and decentralised community governance into a single, purpose-built digital asset.

With a fixed supply of 589,000,000 \$LRP tokens, a tokenomics model weighted heavily toward liquidity and community sustainability, and a clear three-phase roadmap, LadyRipple is positioned to become one of the defining tokens of the LadyChain ecosystem.

This whitepaper outlines the vision, technology, tokenomics, roadmap, NFT collection, and community strategy that underpin the LadyRipple project.

The Problem

The cryptocurrency space is dominated by projects that follow trends rather than creating them. Countless tokens launch as copies of existing assets — mimicking branding, replicating tokenomics, and riding the coattails of community movements built by others. The result is a market saturated with noise and short on substance.

There is a deeper problem too. Most crypto communities are transactional rather than transformational. Holders join for price speculation and leave when momentum fades. There is no identity, no culture, no reason to stay.

LadyRipple was created to solve both of these problems at once: to be a token with a genuine identity rooted in culture and community, launched on blockchain infrastructure — LadyChain — that is built for longevity.

Vision & Mission

Our Vision

To build the most culturally resonant and community-empowered token on LadyChain — a token that does not just follow the wave of crypto culture, but creates it.

Our Mission

To empower holders through transparency, community-first tokenomics, and a long-term roadmap that evolves with its community. LadyRipple is built to last, not just to launch.

Our Values

- ◆ **Community First** — Every decision is made with the community's interests at the centre.
- ◆ **Transparency** — Open tokenomics, visible liquidity, and honest communication.
- ◆ **Longevity** — Built for the long game — not a pump and dump, but a wave that keeps rolling.
- ◆ **Empowerment** — Giving holders a stake in something that means something.
- ◆ **Culture** — LadyRipple is a brand, a movement, and a community — not just a ticker.

What is LadyRipple?

LadyRipple is the first ripple-themed token launched on LadyChain. It fuses cyberpunk energy, community power, and next-generation blockchain technology into a single, unified token identity.

The name "LadyRipple" is intentional. A ripple starts small but reaches every corner of the water it touches. LadyRipple is designed with that same philosophy: start with a strong, tight-knit community and expand outward — across chains, across cultures, across markets.

LadyChain

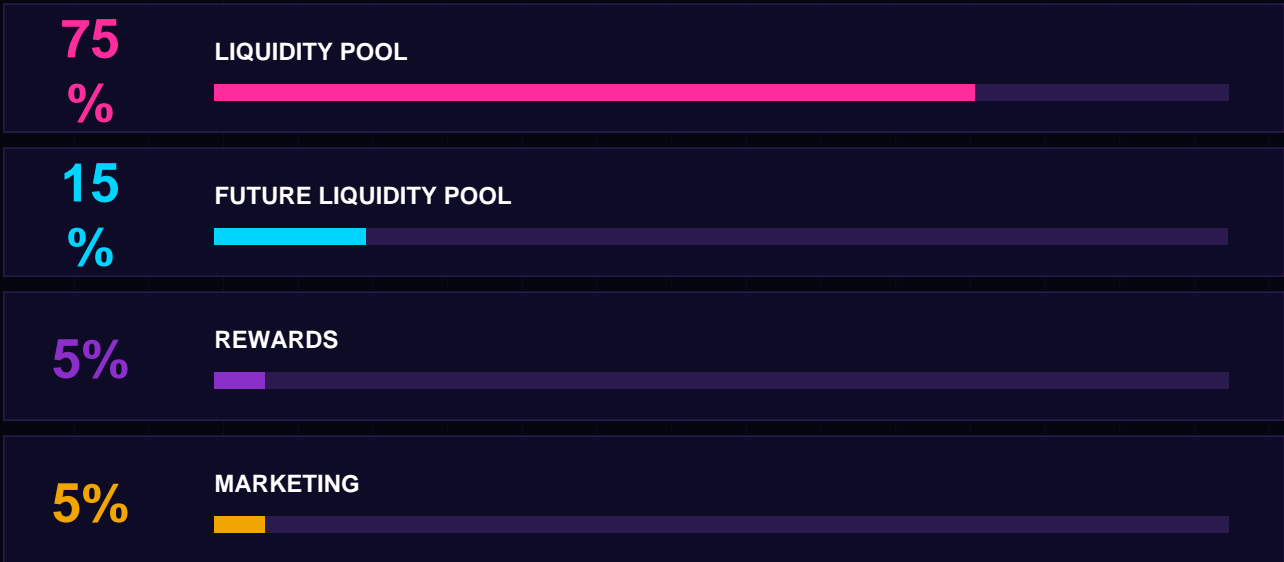

LadyRipple is deployed on LadyChain — a purpose-built EVM-compatible blockchain ecosystem offering fast transaction finality, low gas costs, and full EVM compatibility.

Key Technical Properties

- ◆ **EVM Compatible** — Full compatibility with Ethereum tooling, wallets, and DApps.
- ◆ **Smart Contract** — Deployed as a standard ERC-20 equivalent token on LadyChain.
- ◆ **Fixed Supply** — No minting functions. Supply is permanently fixed at 589,000,000 \$LRP.
- ◆ **Dual Liquidity Pool** — \$LRP can be acquired using the native LadyChain token OR LXR (bridged XRP).
- ◆ **NFT Integration** — Phase 2 NFT collection interacts directly with on-chain HODL reward mechanics.
- ◆ **Decentralised Trading** — Traded via LadySwap — the native DEX of the LadyChain ecosystem.
- ◆ **On-Chain Transparency** — All transactions verifiable on LadyScan: [ladyscan.us](https://ladychain.ladyscan.us)
- ◆ **Liquidity Locked** — 75% of supply allocated to the liquidity pool from launch.

Token Distribution

LadyRipple's tokenomics are designed with one principle above all others: **community sustainability**. A combined 90% of the total supply is dedicated to liquidity — ensuring price stability, trading depth, and long-term confidence for all holders.

Allocation Rationale

- ◆ **Liquidity Pool (75%)** — The largest allocation ensures deep, stable liquidity on LadySwap from day one. This pool supports both the native LadyChain pair and the LXR/LRP pair, enabling dual-entry for XRP and LadyChain holders alike.
- ◆ **Future Liquidity Pool (15%)** — Reserved for future liquidity expansion, including cross-chain deployments, new DEX listings, and ecosystem partnerships.
- ◆ **Rewards (5%)** — Funds the community incentive programme, including NFT-linked HODL rewards, airdrops, engagement competitions, and ecosystem participation bonuses.
- ◆ **Marketing (5%)** — Dedicated to growing LadyRipple's presence across social platforms, influencer partnerships, and exchange listing campaigns.

The Journey Ahead

LadyRipple launched in 2026 and its roadmap is built around three distinct phases of growth — from initial launch and community activation, through strategic expansion and NFT launch, to full ecosystem dominance.

PHASE 1 — GENESIS WAVE

Launch & Foundation

- ◆ Token Launch on LadyChain via LadySwap (2026)
- ◆ Website & Whitepaper Deployment
- ◆ Community Activation — Telegram, X, Discord
- ◆ Dual Liquidity Pool — LXR/LRP & Native LadyChain pair
- ◆ Social Expansion & Grassroots Growth
- ◆ CoinGecko & CoinMarketCap Listing Applications

PHASE 2 — WAVE EXPANSION

Growth, NFT Launch & Rewards

- ◆ Meme Campaigns & Viral Content Strategy
- ◆ Crypto Influencer Partnerships
- ◆ DEX Listings & Ecosystem Integrations
- ◆ Community Events & Competitions
- ◆ Ambassador Programme Launch
- ◆ ★ LadyRipple NFT Collection Launch
- ◆ ★ NFT Reward Tiers Activated (Rare & Legendary)
- ◆ ★ HODL Requirement Enforced for NFT Rewards
- ◆ ★ Snapshot-Based Reward Distribution Goes Live

PHASE 3 — RIPPLE DOMINATION

Ecosystem & Scale

- ◆ Ecosystem Utility Development
- ◆ Major Centralised Exchange Exposure
- ◆ Cross-Chain Expansion (Bridge Deployment)
- ◆ DAO Governance Framework
- ◆ NFT Utility Expansion & Secondary Market
- ◆ LadyRipple Ecosystem Partnerships

NFT Collection & HODL Rewards

The LadyRipple NFT Collection is a core pillar of the Phase 2 ecosystem — not a separate product, but a direct extension of the \$LRP token's reward mechanics. Holding the right NFT alongside your \$LRP unlocks enhanced yields from the community rewards pool.

LADYRIPPLE NFT COLLECTION — PHASE 2 LAUNCH

The LadyRipple NFT Collection launches in Phase 2, bringing a cyberpunk-themed series of unique digital collectibles to the LadyChain ecosystem. Certain minted NFTs carry special reward tiers — making the collection both a cultural artefact and an active income layer for committed holders.

NFT REWARD TIERS

- ◆ **Rare & Legendary NFTs** — Select minted NFTs unlock enhanced reward rates from the community rewards pool. Rarity determines reward multiplier.
- ◆ **HODL Requirement** — To qualify for NFT-linked rewards, holders must maintain a minimum \$LRP balance in their wallet for a defined lock period. Selling below the threshold forfeits pending rewards.
- ◆ **Snapshot-Based Distribution** — Rewards are calculated via periodic on-chain snapshots. Wallets holding both a qualifying NFT and the required \$LRP balance at snapshot time receive their allocation automatically.
- ◆ **Loyalty Multiplier** — The longer a holder maintains their position, the higher their reward multiplier grows. Long-term holders are rewarded most.

Community & Ecosystem

LadyRipple is, at its core, a community project. The team exists to serve the community — not the other way around. Every major decision is made with transparency and community input.

Community Pillars

- ◆ **Telegram** — Our primary community hub. Real-time updates, discussions, and events. t.me/TheOfficialLadyRipple
- ◆ **X (Twitter)** — Crypto-native social presence for announcements, meme culture, and market updates.
- ◆ **Discord** — Structured community space for deeper discussions, working groups, and ambassador coordination.
- ◆ **Holder Rewards** — 5% of total supply reserved for NFT-linked HODL rewards, airdrops, and loyalty bonuses.
- ◆ **Transparency** — Regular on-chain reporting via LadyScan, liquidity visibility, and open communication.

How to Buy \$LRP

\$LRP can be purchased on LadySwap using the native LadyChain token or **LXRP** (bridged XRP). Whether you are coming from the XRP ecosystem or already on LadyChain, there is a direct path to \$LRP.

0
1

SET UP A WALLET

Install MetaMask or any EVM-compatible wallet that supports custom networks.

0
2

ADD LADYCHAIN NETWORK

Configure your wallet to connect to LadyChain using the official RPC settings from the LadyChain documentation.

0
3

FUND YOUR WALLET

Add the native LadyChain gas token, or bridge XRP to receive LXRP (see below).

0
4

VISIT LADYSWAP

Go to ladyswap.us/swap — the official DEX for LadyChain trading pairs.

0
5

SWAP FOR \$LRP

Paste the contract address: `0x0f7418a346d88e12ec93337998ee0e9d2365fd12` and swap your native token or LXR for \$LRP.

0
6

JOIN THE COMMUNITY

Head to t.me/TheOfficialLadyRipple and introduce yourself to the wave.

DUAL LIQUIDITY POOL — BUY WITH XRP OR LXR

LadyRipple features a **dual liquidity pool** — meaning you can acquire \$LRP using either the native LadyChain token or **LXR**, the bridged version of XRP on LadyChain. This makes \$LRP directly accessible to the entire XRP community.

HOW TO BUY WITH XRP

XRP (XRPL) → Bridge to LadyChain → LXR (Wrapped) → Swap on LadySwap → \$LRP Token

- ◆ **Hold XRP** — Start with XRP in your XRPL-compatible wallet.
- ◆ **Bridge to LadyChain** — Use the official LadyChain bridge to convert XRP into LXR (Locked XRP on LadyChain).
- ◆ **Swap LXR → \$LRP** — Visit LadySwap (ladyswap.us/swap), connect your wallet, and swap your LXR directly for \$LRP using the LXR/LRP liquidity pool.

Legal Disclaimer

This whitepaper is for informational purposes only and does not constitute financial, investment, legal, or tax advice. Nothing contained herein should be interpreted as a solicitation or offer to buy or sell any financial instrument or security.

Cryptocurrency and digital token investments carry a high degree of risk. The value of \$LRP tokens may fluctuate significantly, and investors may lose some or all of their invested capital. Past performance is not indicative of future results.

LadyRipple tokens and associated NFTs are not registered securities under any jurisdiction. Holding \$LRP or LadyRipple NFTs does not represent ownership, equity, or any legal claim over the LadyRipple project or its associated entities.

NFT-linked rewards are subject to HODL requirements and snapshot mechanics as described in this whitepaper. The team reserves the right to adjust reward parameters to ensure long-term ecosystem sustainability. Any changes will be communicated to the community in advance.

This document may contain forward-looking statements about the future development and roadmap of LadyRipple. These statements are based on current expectations and are subject to change.

Prospective holders are strongly encouraged to conduct their own independent research (DYOR) and consult with qualified financial and legal advisors before making any investment decisions in connection with \$LRP.

The LadyRipple team, its advisors, and associated parties shall not be liable for any direct, indirect, incidental, or consequential losses arising from the use of, or reliance on, information contained in this whitepaper.
